

Clinical Engineer

Life Fourways Hospital

Introduction

An exciting opportunity has arisen at **Fourways Hospital**, for a Clinical Engineer reporting to the Hospital Manager. This job entails the optimisation and management of medical equipment, from acquisition through to eventual disposal, on a regional level. It includes all aspects of medical equipment maintenance.

Critical Outputs

- Establishing and maintaining an accurate inventory of all medical equipment.
- Accurate record keeping of all inspections, tests and repairs.
- Executing planned preventative maintenance on all medical equipment.
- Diagnosing and trouble shooting medical equipment failure.
- Liaising with vendors for repairs and services, keeping up-to-date with technical advances.
- Training of medical staff on correct, safe and responsible usage of medical equipment.
- Working towards an improved hospital maintenance service as an integral part of the maintenance team.
- Computer skills in Microsoft Office – Outlook, MS Excel, MSWord, PowerPoint .

Requirements

Required qualification is either a Clinical Engineer Diploma (S4), or an Electronic Engineering Diploma with at least 3 years experience on the repair and maintenance of Medical Equipment.
The successful candidate must display the following competencies: initiative; the ability to inspire professionalism; attention to detail; strong results orientation, and excellent communication skills.
