

# CLINICAL ENGINEER PEGLERAE HOSPITAL

## Introduction

A vacancy has arisen for a Clinical Engineer at Peglerae/La Femme Hospital. This job entails the optimisation and management of medical equipment, from acquisition through to eventual disposal, on a regional level. It includes all aspects of medical equipment maintenance. The position reports to the Hospital Manager, Barbara Moore.

## Critical Outputs

- Establishing and maintaining an accurate inventory of all medical equipment.
- Accurate record keeping of all inspections, tests and repairs.
- Executing planned preventative maintenance on all medical equipment.
- Diagnosing and trouble shooting medical equipment failure.
- Liaising with doctors and Hospital Manager regarding medical equipment and special requests.
- Liaising with vendors for repairs and services, keeping up-to-date with technical advances.
- Training of medical staff on correct, safe and responsible usage of medical equipment.
- Working towards an improved hospital maintenance service as an integral part of the maintenance team.
- Computer skills in Microsoft Office – Outlook, MS Excel, MSWord, PowerPoint .

## Requirements

- Required qualification is either a Clinical Engineer Diploma (S4), or an Electronic Engineering Diploma with at least 3 years experience on the repair and maintenance of medical equipment.
- The successful candidate must display the following competencies: initiative; the ability to inspire professionalism; attention to detail; strong results orientation, and excellent communication skills.
